

# **Safety Data Sheet**

# HUSKY 430 CREME CLEANSER

Revision: 2021-07-15

**SECTION 1: Identification** 

## **Product identifier Product Name HUSKY 430 CREME CLEANSER** Authorization number F430-001 Recommended Use Scouring Cleanser **Uses advised against** Restrictions on use: Do not use in any fashion not specified on the product label. Manufacturer/Supplier **Canberra** Corporation 3610 N. Holland-Sylvania Rd. Toledo Ohio 43615 United States Telephone: +1 (419) 841-6616 Website: http://canberracorp.com/ e-Mail (competent person) regulatorycompliance@canberracorp.com 800-424-9300 **Emergency telephone number** National poison center 800-222-1222 SECTION 2: Hazard(s) identification **Classification acc. to GHS** Skin corrosion/irritation. H314. Serious eye damage/eye irritation. H318. Label elements Signal word Danger **Pictograms Hazard statements** Causes severe skin burns and eye damage.

## **Precautionary statements**

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use. Do not breathe dusts or mists. Wear eye protection/face protection. If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor.

## **Precautionary statements**

Store locked up. Dispose of contents/container to industrial combustion plant.

## **Other hazards**

Hazards not otherwise classified

Toxic to aquatic life (GHS category 2: aquatic toxicity - acute).

## SECTION 3: Composition/information on ingredients

Name of substance	Identifier	Wt%
Alkylbenzene Sulfonic Acid	CAS No 68584-22-5	1-<5

For full text of abbreviations: see SECTION 16.

## **SECTION 4: First-aid measures**

#### **Following inhalation**

If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. In case of respiratory tract irritation, consult a physician. Provide fresh air.

## Following skin contact

Wash with plenty of soap and water.

#### Following eye contact

Remove contact lenses, if present and easy to do. Continue rinsing. Irrigate copiously with clean, fresh water for at least 10 minutes, holding the eyelids apart.

#### **Following ingestion**

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting.

#### Indication of any immediate medical attention and special treatment needed

none

## **SECTION 5: Fire-fighting measures**

## Suitable extinguishing media

Water spray, BC-powder, Carbon dioxide (CO2)

#### Unsuitable extinguishing media

Water jet

#### Special hazards arising from the substance or mixture

#### Hazardous combustion products

Carbon monoxide (CO), Carbon dioxide (CO2)

#### Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

## SECTION 6: Accidental release measures

## Personal precautions, protective equipment and emergency procedures

For non-emergency personnel

Remove persons to safety.

For emergency responders

Wear breathing apparatus if exposed to vapors/dust/aerosols/gases.

#### **Environmental precautions**

Keep away from drains, surface and ground water. Retain contaminated washing water and dispose of it.

## Methods and material for containment and cleaning up

Advice on how to contain a spill

Covering of drains

Advice on how to clean up a spill

Wipe up with absorbent material (e.g. cloth, fleece). Collect spillage: sawdust, kieselgur (diatomite), sand, universal binder

Appropriate containment techniques

Use of adsorbent materials.

Other information relating to spills and releases

Place in appropriate containers for disposal. Ventilate affected area.

## **SECTION 7: Handling and storage**

## **Precautions for safe handling**

- Measures to prevent fire as well as aerosol and dust generation

Use local and general ventilation. Use only in well-ventilated areas.

- Handling of incompatible substances or mixtures Do not mix with alkali.
- Keep away from

**Caustic solutions** 

#### Advice on general occupational hygiene

Wash hands after use. Do not eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. Never keep food or drink in the vicinity of chemicals. Never place chemicals in containers that are normally used for food or drink. Keep away from food, drink and animal feedingstuffs.

#### Conditions for safe storage, including any incompatibilities

Protect against external exposure, such as

frost

See section 16 for a general overview.

## **SECTION 8: Exposure controls/personal protection**

### **Exposure controls**

#### **Appropriate engineering controls**

General ventilation.

## Individual protection measures (personal protective equipment)

#### Eye/face protection

Wear eye/face protection.

#### Skin protection

- Hand protection

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

#### - Other protection measures

Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling.

#### **Respiratory protection**

In case of inadequate ventilation wear respiratory protection.

#### **Environmental exposure controls**

Use appropriate container to avoid environmental contamination. Keep away from drains, surface and ground water.

ON 9: Physical and chemical properties		
Physical state	Liquid	
Color	White	
Odor	Mint	
pH (value)	1 - 2.5	
Melting point/freezing point	Not determined	
Flash point	Not determined	
Evaporation rate	Not determined	
Flammability (solid, gas)	Not relevant (fluid)	
	Not determined	
Density	Not determined	
Vapor density	This information is not available	
Relative density	1.2 – 1.3 at 20 °C (water = 1)	
Dynamic viscosity	30,000 – 65,000 cP at 20 °C	

# SECTION 9: Physical and chemical properties

## **SECTION 10: Stability and reactivity**

### Reactivity

Concerning incompatibility: see below "Conditions to avoid" and "Incompatible materials".

#### **Chemical stability**

See below "Conditions to avoid".

#### Possibility of hazardous reactions

No known hazardous reactions.

#### Conditions to avoid

There are no specific conditions known which have to be avoided.

#### **Incompatible materials**

Oxidizers

#### Hazardous decomposition products

Reasonably anticipated hazardous decomposition products produced as a result of use, storage, spill and heating are not known. Hazardous combustion products: see section 5.

## **SECTION 11: Toxicological information**

#### Information on toxicological effects

Test data are not available for the complete mixture.

#### **Classification procedure**

The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

#### Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

#### Acute toxicity

Shall not be classified as acutely toxic.

Acute toxicity estimate (ATE) of components of the mixture			
Name of substance CAS No Exposure route ATE		ATE	
Alkylbenzene Sulfonic Acid	68584-22-5	inhalation: vapor	11 <sup>mg</sup> / <sub>l</sub> /4h
Alkylbenzene Sulfonic Acid	68584-22-5	inhalation: dust/mist	>1.9 <sup>mg</sup> / <sub>l</sub> /4h

#### Skin corrosion/irritation

Causes severe skin burns and eye damage.

#### Serious eye damage/eye irritation

Causes serious eye damage.

## Respiratory or skin sensitization

Shall not be classified as a respiratory or skin sensitizer.

### Germ cell mutagenicity

Shall not be classified as germ cell mutagenic.

#### Carcinogenicity

Shall not be classified as carcinogenic.

#### **Reproductive toxicity**

Shall not be classified as a reproductive toxicant.

## Specific target organ toxicity - single exposure

Shall not be classified as a specific target organ toxicant (single exposure).

#### Specific target organ toxicity - repeated exposure

Shall not be classified as a specific target organ toxicant (repeated exposure).

#### **Aspiration hazard**

Shall not be classified as presenting an aspiration hazard.

## **SECTION 12: Ecological information**

## Toxicity

Toxic to aquatic life.

Aquatic toxicity (acute) of components of the mixture					
Name of substance	CAS No	Endpoint	Value	Species	Exposure time
Alkylbenzene Sulfonic Acid	68584-22-5	LL50	>10,000 <sup>mg</sup> / <sub>l</sub>	fish	96 h
Alkylbenzene Sulfonic Acid	68584-22-5	EC50	>1,000 <sup>mg</sup> / <sub>l</sub>	aquatic invertebrates	48 h
Alkylbenzene Sulfonic Acid	68584-22-5	ErC50	>1,000 <sup>mg</sup> / <sub>l</sub>	algae	72 h

## Persistence and degradability

Data are not available.

### **Bioaccumulative potential**

Data are not available.

#### Mobility in soil

Data are not available.

#### **Results of PBT and vPvB assessment**

Data are not available.

## **Endocrine disrupting properties**

None of the ingredients are listed.

#### Other adverse effects

Data are not available.

## **SECTION 13: Disposal considerations**

#### Waste treatment methods

## Sewage disposal-relevant information

Do not empty into drains. Avoid release to the environment. Refer to special instructions/safety data sheets.

## Waste treatment of containers/packages

Completely emptied packages can be recycled. Handle contaminated packages in the same way as the substance itself.

#### Remarks

Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.

## **SECTION 14: Transport information**

UN number	not subject to transport regulations	
UN proper shipping name	not relevant	
Transport hazard class(es)	not assigned	
Packing group	not assigned	
Environmental hazards	non-environmentally hazardous acc. to the dan- gerous goods regulations	

Not subject to transport regulations.

Not subject to IMDG.

Not subject to ICAO-IATA.

## **SECTION 15: Regulatory information**

## **National regulations (United States)**

#### **Clean Air Act**

none of the ingredients are listed

## **NPCA-HMIS® III**

Category	Rating	Description
Chronic	*	chronic (long-term) health effects may result from repeated overexposure
Health	3	major injury likely unless prompt action is taken and medical treatment is given
Flammability	1	material that must be preheated before ignition can occur
Physical hazard	0	material that is normally stable, even under fire conditions, and will not react with water, polymerize, decompose, condense, or self-react. Non-explosive
Personal protection	-	

## **NFPA® 704**

Category	Degree of hazard	Description
Flammability	1	material that must be preheated before ignition can occur
Health	3	material that, under emergency conditions, can cause serious or permanent injury
Instability	0	material that is normally stable, even under fire conditions
Special hazard		

## **National inventories**

Country	Inventory	Status
EU	REACH Reg.	not all ingredients are listed
US	TSCA	not all ingredients are listed

Legend

TSCA

REACH Reg. REACH registered substances TSCA Toxic Substance Control Act

## SECTION 16: Other information, including date of preparation or last revision

## Key literature references and sources for data

OSHA Hazard Communication Standard (HCS), 29 CFR 1910.1200.

Transport of dangerous goods by road or rail (49 CFR US DOT). International Maritime Dangerous Goods Code (IMDG). Dangerous Goods Regulations (DGR) for the air transport (IATA).

## **Classification procedure**

Physical and chemical properties: The classification is based on tested mixture. Health hazards, Environmental hazards: The method for classification of the mixture is based on ingredients of the mixture (additivity formula).

## List of relevant phrases (code and full text as stated in chapter 2 and 3)

Code	Text
H314	Causes severe skin burns and eye damage.
H318	Causes serious eye damage.

## Disclaimer

This information is based upon the present state of our knowledge. This SDS has been compiled and is solely intended for this product. Disclaimer: No representation or warranty, either expressed or implied, of merchantability, fitness for a particular purpose, or of any other nature, is made with respect to information concerning the product referred to in this document.
